

NO ELECTRICITY
NO WASTED REGENERANT
NO WASTED WATER
NO COMPARISON

A Kinetico Water Softener is Unique.

Non-Electric.

A fully-automatic control valve measures water usage and initiates regeneration only when needed. Uses less regenerant and eliminates costly electronic repairs.

Twin Softening Tanks.

Unlike single tank systems, a Kinetico system switches service from tank to tank for a continuous supply of soft water. The tank in service also cleans its twin with soft water.

Kinetico® water systems

Features and Benefits	Kinetico Water Softener	Single Tank Electric Timer Water Softener
Non-Electric	Yes	No
System design eliminates timer, solenoid and microprocessor problems	Yes	No
System has two softening tanks	Yes	No
