

PRODUCT PERFORMANCE GUARANTEE

In addition to Kinetico's outstanding Manufacturer's warranty, Integrity Water Solutions offers this further guarantee of assurance:

After the purchase and installation of any new Kinetico non-electric twin tank water conditioning unit and/or Kinetico drinking water system, the customer has one year from date of installation to determine if the installed equipment performs as represented by Integrity Water Solutions.

If this product does not perform as represented, based on the water analysis conducted at the time of purchase, and we are unable to correct the problem after a reasonable opportunity, then the customer may present this redeemable certificate to receive a full refund of purchase price less any finance charge.

This guarantee is not transferable to a subsequent owner.
